Study in Greece

TOP UK UNIVERSITY DEGREES

metropolitan.edu.gr

Metropolitan College in a few words!

Metropolitan College is the largest Transnational Education provider in Greece and in collaboration with state UK universities, it delivers Bachelor, Master and MBA programmes in seven campuses around Greece. Founded in 1982, Metropolitan College is a constitutive member of METROPOLITAN - AKMI Educational Organization, the largest private postsecondary educational group in Greece (more than 25.000 students nationwide).

Metropolitan College is accredited by the British Accreditation Council (BAC), certifying that it is an overseas independent higher education institution following the traditional UK semester and credit system.

All courses are specially designed to meet the demands of modern students and facilitate their entry into the international job market. Career Office and International Career Fair offer the additional links with the industry.

Besides that, Metropolitan College provides Student Welfare: Counselling Centre, Academic Learning Centre and Personal Academic Tutors who ensure that individual learning needs of each student are covered.

Additionally, student life at Metropolitan College offers a unique, diverse and fulfilling environment, where students are encouraged to seize opportunities that will broaden their horizons by exploring their limits, discovering new interests and making life-long friendships. Visits and excursions to historical and cultural sites, student life activities and events present opportunities to interact with local students and experience a full immersion in Greek culture and in modern Greek lifestyle.

Study in the No1 Transnational Education Provider in Greece
