

Hellenic Aviation Summer School

SUMMER 2025 - LARISSA

Module I: Fundamentals of Aviation

Description:

The **Hellenic Aviation Summer School** is structured as a STEAM (Science Technology Engineering, Arts, Math) academic offering that aims to inspire, engage and educate high school students ages 13-17, in science and technology through applied knowledge of aviation. The program utilizes a series of hands-on, inquiry-based activities delivered through classroom and practicum modalities. These activities encompass applied knowledge of seven key areas within aviation: aerodynamics, aircraft design and systems; flight operations; air traffic management; airport operations; history; and careers. The program is offered by Athens International Airport, Fraport Greece, New England Aeronautical Institute, Metropolitan College and Global Aviation SA with the aegis of the Hellenic Civil Aviation Authority on the following dates: 23-27 June 2025 (Athens at Hellenic Civil Aviation Authority headquarters and Eleftherios Venizelos international airport), 30 June - 4 July 2025 (Thessaloniki at Makedonia international airport), 3 July 2025 (Rhodes at Diagoras international airport), 4 July 2025 (Chania at I. Daskalogiannis international airport), and 30 June - 2 July (Larissa at Hellenic Tactical Air Force Command headquarters).

Module Description - Fundamentals of Aviation:

This module covers the fundamental elements of air transport operations, including airlines, airports, and air traffic management operations as well as provides information on Airforce operations. In addition, students get exposed to career paths within the air transportation industry. At the conclusion of the module students will be able to describe the fundamental elements of the air transportation system and the manner which they connect with each other toward its safe and efficient operation.

Practical Information:

Language of Instruction: Greek.

Tuition: Free of charge.

Dates: 02 July 2025.
